

工商發展

Business and Industrial Development

香港特別行政區政府
THE GOVERNMENT OF THE HONG KONG SPECIAL ADMINISTRATIVE REGION

The Government is publishing this year a series of booklets covering our Strategic Policy Objectives. These booklets provide clear descriptions of the initiatives being taken and the resulting benefits. In some cases, quantified targets are given. In others, these will be developed over time. This booklet spells out the Government's initiatives on **“Business and Industrial Development”**.

Business and Industrial Development

Enhance Economic Vitality and Sustain Economic Growth

“ My Administration will strive to improve the environment for business in Hong Kong so that everyone has the opportunity to prosper through their work and so contribute to the common prosperity. Our efforts will be directed to increasing our external competitiveness, increasing friendliness to business within Hong Kong and to promoting a healthy competitive environment. We will do everything to remove obstacles and constraints to business development. We will give the private sector freedom to set its own direction, to explore and to seize opportunities. ”

Chief Executive, Mr Tung Chee Hwa
Policy Address on 8 October 1997
